The highly regarded David Wilcock reveals the stunning scientific proof that DNA and biological life emerge directly out of the Source Field - a universal matrix of energy creating all space, time, matter, energy, biological life and consciousness, and we are indeed about to experience the Greatest Moment of All Time. Learn about the pineal gland, Illuminati, government conspiracy, UFOs, DMT, the Mayan Calendar and much more! DVD ■ Money As Debt III: Evolution Beyond Money - The third and final movie in this exceptional animated trilogy presents an attractive picture of how "money" could work in the future. It is full of surprising specifics for creating a nurturing economy applied with technologies that exist right now. Demonstrating in easy to understand terms why our primitive concept of money as a single uniform commodity is the root cause of money dysfunction and a major factor in economic and political injustice. There is now, and there has been for a long time, an alternative way to "do money". Illustrating in extensive detail, how a fundamental change in our long held concept of money, paired with recent breakthroughs in technology, opens the door to a liberated self balancing money system backed by real value and open to all. Essential information. £10

DVD ■ China's Lost Pyramids - China's history is shrouded in mystery as far as the western world is concerned. Despite speculation about the existence of great pyramids in China, archaeologists and bureaucrats have continually refused to consider the rumours about such structures or acknowledge that they do indeed exist. But recent pictorial evidence proves that China's pyramids are indeed real, rivalling those of Egypt and Central America for their age, size and significance. There are many of them and they tower over some of the most tranquil countryside in rural China. They're giant, man made structures that hold the keys to a violent history scarcely imaginable in such peaceful surroundings. These are the ancient pyramids of a bygone era characterised by battles and bloodshed, as warring kingdoms wrangled with each other in a power struggle spanning generations. Stunning suppressed information. £10

DVD ■ The Philadelphia Experiment: The Story Behind The Invisibility Project - The mysterious events of 1943 when it was alleged a Navy Destroyer Escort vessel at the Philadelphia Naval Yard was made to disappear for several minutes during an Electronic Camouflage Experiment. It apparently involved a " High Intensified Magnetic Field " in which the crew either fell ill, went mad or died and in some cases some said they were propelled into other dimensions inhabited by strange beings? It has also been alleged the ship not only became invisible but also teleported to Norfolk 200 miles away then back again to Philadelphia in a matter of minutes. It is of course officially denied that the Experiment never took place. This talk will explore this incredible story. A very detailed and thought provoking presentation by Brian Halliwell with many revelations that will be new to many people. £10

DVD ■ Looking To The Future: The Next Decade - Author Webster Tarpley goes into detail on a whole host of historical, financial and geopolitical issues in a bid to outline the major crises, revolutions and wars that will hit the globe over the next decade and shape the future of our world. He begins by discussing how the extremists in the current elite have a shared hatred for science, technology and industry and how they really are contemplating and initiating genocidal measures to thin the human surplus because of their deep seated ideological ideas, shared by oligarchies throughout the ages, which is to suppress the progress and development of any society's underclass. Moving on to how these elitists use the financial system to further their aims, he explains how the move towards a global currency and worldwide financial regulations is being advanced by the IMF, but how nations are now rejecting this "Washington Consensus", and instead adopting the "Beijing Consensus" which allows them to retain control over their own national sovereignty. Discussing why the dollar as the world reserve currency is toast and that it is set to be replaced by a synthetic imperialist global currency called the Bancor. Tarpley warns that the IMF dictatorship is now in the final stages of asset stripping and cannot last much longer. Exceptional clarity. £10
