4 Audio CD Set REVAMPED AND UPDATED ■ Get Out Of Debt (Without Borrowing or Going Bankrupt) - A very detailed and informative 2 CD interview with Mary Croft, writer of the infamous "How I Clobbered Every Bureaucratic Cash Confiscatory Agency Known To Man" - **PLUS** a computer PDF file of her book to print. She describes in detail how to get your credit card, loan and mortgage debt written off. In simple terms - there is no legal contract as the banks do not sign the contract, therefore there is no legal obligation to repay the money. If they signed the contract they couldn't turn it into a "promissory note" with which they create between 10 and 33 times that amount of money out of thin air and so on. **PLUS** an interview with John Dempsey who is in control of "The Canadian People V's The Banks" - a class action that money is created illegally out of thin air by the banks. **PLUS** an interview with someone in the UK who has successfully navigated the Mary Croft system and had their debts written off. 4 CD's £15

DVD ■ Fabled Enemies - A new film by Loose Change filmmaker Jason Bermas. The enemy struck America. But Who is the enemy? Seven years after the supposed mastermind behind the attacks on New York is still at large, and the nation is entrenched in multiple Wars in the Middle East. Is Bin Laden the Evil behind the attack or a mere front man in a much larger picture, a Bogeyman? We are told we are fighting a War on Terror, and that the Terrorists hate us for our freedom. If that is the case, why do our leaders take more and more of those freedoms away every day? An exceptional film. £10

DVD ■ 9/11 Finding The Truth - A mind blowing UK presentation by top quality 9/11 researcher Andrew Johnson, formerly of 9/11 Scholars for Truth, for those open minded enough to go wherever the scientific evidence takes you. This video presentation is the clearest and most lucid presentation of the most contentious evidence that you will ever see and is well supported by visuals, film clips, graphs and documentation throughout the entire 2 hour presentation. You will be dumb struck when you see the graphs and visuals about the hurricane that was directed away from New York on 9/11 - they needed a clear blue sky as a background for video fakery. Prepare to be absolutely astounded by the scientific evidence. Controversial as it may be, the findings are absolutely impossible to dismiss. A top quality presentation by an outstanding researcher and presenter. A must see. £10

DVD ■ The New Biology - Where Mind and Matter Meet - An exceptionally revealing talk by Dr Bruce Lipton PhD. Recent advances in cellular science are heralding an important evolutionary turning point. For almost fifty years we have held the "illusion" that our health and fate were preprogrammed in our genes, a concept referred to as genetic determinacy. Though mass consciousness is currently filled with the "belief" that the character of one's life is genetically predetermined, a radically new understanding is unfolding at the leading edge of science. This new perspective of human biology does not view the body as just a mechanical device, but rather incorporates the role of a mind and spirit. This breakthrough in biology is fundamental in all healing for it recognizes that when we change our perception or beliefs we send totally different messages to our cells and reprogram their expression. The new-biology reveals why people can have spontaneous remissions or recover from injuries deemed to be permanent disabilities. A remarkable thought provoking presentation. £10

DVD ■ George Green: Messages for the Ground Crew - You will remember the amazing George Green from the awesome DVD "The Big Picture" (also available) and his mission to expose the truth about the world controllers' devious plans for us. He is a former government insider who mixed with the financial elite which led him to discover that everything that he thought he knew was a lie. In this April 2008 film he discusses his insider knowledge of the current world banking, political, military and economic situation and how it affects you, together with the spiritual understanding of why you are here. He has now devoted his life to "waking people up" and spreading the word that all is not as it seems. As well as being very informative he is a delight to listen to. Not to be missed. £10

DVD ■ The Inner World Of The Occult: Jordan Maxwell is the foremost expert when it comes to research on the occult. He has spent 44 years studying both conspiracy and the occult. In the video he delves deeply into the occult forces which play a major role in our lives and it's role in the control of the western world and its leaders through the financial fraternity. He also shows, in detail, the role and significance of the attacks of September 11th 2001 and how they help to bring forth the New World Order. A must see for anyone who wants to know the real cause and perpetrators of this occult conspiracy. Stunning information. £10
